On behalf of the Ontario Archaeological Society, the Simcoe County Chapter, welcomes you to the Society's 8th Annual Symposium. For the second consecutive year the Symposium is being held outside of Toronto, and the archaeology of the host region has been selected as the central theme.

The members of the Symposium Committee have tried to arrange a variety of papers which will present a temporal and spatial overview of Georgian Bay archaeology. It is the hope of the Committee that today's Symposium will synthesize the vast amount of knowledge from this area into a clear summary and further stimulate the interest of amateur and professional archaeologists in this tremendously interesting prehistoric and historic region.
